

# Haymanot Wolde

## Full Stack Web Developer

Cleveland, OH 44124 | **Cell Phone:** (+1) 614-927-9499 | **Email:** [haymanotalemu21@gmail.com](mailto:haymanotalemu21@gmail.com)

**LinkedIn:** <https://www.linkedin.com/in/haymanot-wolde-4ab3771a9/> | **GitHub:** <https://github.com/haymanotyealemu>

**Portfolio:** <https://haymanotyealemu.github.io>

---

## Summary

- ✓ Skilled in building intuitive user interfaces using the current best web development practice.
- ✓ Expertise in full Software Development Life Cycle (SDLC) including software architecture, object-oriented programming, and designing.
- ✓ Graduated from a 24-week intensive web development training in Case Western Reserve University Bootcamp program.
- ✓ Have strong analytical, web content management, collaborative, and fast learning skills.

## Technical Skills

- ✓ JavaScript, HTML5, CSS, Bootstrap, JQuery, Node.js, Express.js, MySQL, MongoDB and React

## Projects

**Speech-Text** | <https://github.com/haymanotyealemu/CWRUBC-Project01.git> |

<https://johannsp.github.io/CWRUBC-Project01/>

- A user can use the microphone to record speech in English, which will be transcribed and translated into German.
- Microsoft Speech Recognition and Microsoft Translator v3.00 are used to accomplish these tasks.
- **Core responsibility:** Developing the front-end or UX of the page and searching and getting the necessary third-party server-side API keys to fetch the relevant object data.
- **Tools / languages used:** JavaScript; HTML5; BULMA CSS framework; JQuery; Moment.js; Microsoft Speech Recognition and Microsoft Translator v3.00.

**Weather-Dashboard** | <https://github.com/haymanotyealemu/Weather-Dashboard.git> |

<https://haymanotyealemu.github.io/Weather-Dashboard/>

- An application used to display weather data for current and 5 days forecast of a given city by a user.
- **Core responsibility:** Developing the application based on the user story criteria.
- **Tools / languages used:** JavaScript; HTML5; Bootstrap CSS framework; jQuery; the third party server side API(open weather map) .

**Burger** | <https://github.com/haymanotyealemu/Burger.git> |

<https://young-retreat-31053.herokuapp.com/>

- An application allows the user to save burger name data, update the state of the burger, and stores the data in the mysql database persistently.
- **Core responsibility:** setting up the MySQL database, building the express server and routes, writing client-side codes, and building handlebar templates.
- **Tools/languages used:** Adopting the MVC pattern design through using Node.js, Express, MySQL, Vanilla javascript, Handlebars, and Bootstrap.

**Code-Quiz** | <https://github.com/haymanotyealemu/Code-Quiz.git> |

<https://haymanotyealemu.github.io/Code-Quiz/>

- This is a timer-based quiz application with multiple-choice questions that store high scores in the local storage.
- **Core responsibility:** Developing the application based on the user story criteria.
- **Tools / languages used:** JavaScript; HTML5; Bootstrap framework; CSS.

## **Experience**

- Tamsel Design and Supervision Engineering PLC. Addis Ababa, Ethiopia (2015 - 2018)
  - Developing detailed designs, Researching and providing estimates for projects, Supervising active projects on the safety procedures, production processes, and regulatory compliance were adopted.

## **Education**

**Full Stack Web Development Certificate:** Case Western Reserve University, Cleveland, OH

A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, JavaScript, jQuery, Bootstrap, Node Js, MySQL, MongoDB, Express, & ReactJS

**BSc Degree in Construction Technology and Management:** Addis Ababa University, Addis Ababa, Ethiopia.
